PROJECTS

Heroes and Villains v2, [Project Link Repo](#) `

Bastrop, LA

Personal Project

July 2021

- Wrote clean and efficient code using React.
- Styled with Material UI to keep look and feel consistent and professional.
- Implemented custom search bar feature to fetch data from custom API and display results as attractive component formatted cards.

Heroes and Villains API, [Project Link Repo](#) `

Bastrop, LA

Personal Project

July 2021

- Custom Node/Express API for Heroes and Villains App
- Implemented Axios Cors and Helmet Middleware.
- Created to get around the fact that the original third party API was giving Cors Policy errors which this API solved.

Rock Paper Scissors, [Project Link Repo](#)

Bastrop, LA

Personal Project

July 2021

- Used React to make a simple childhood favorite game.
- Saved user choice and computer choice into state variables and rendered information based on those variables.
- Computer choice randomly generated with `math.Random()`.
- Used Styled Components to keep code simple and readable
